Mini Dungeon Sets are based around 15mm chibi themed miniatures and come with everything you need for a basic crawl contained on 2 print and play A4 sheets.

Mini Dungeon Sets do not include any rules but are designed to be used with most existing dungeon crawling rules sets.

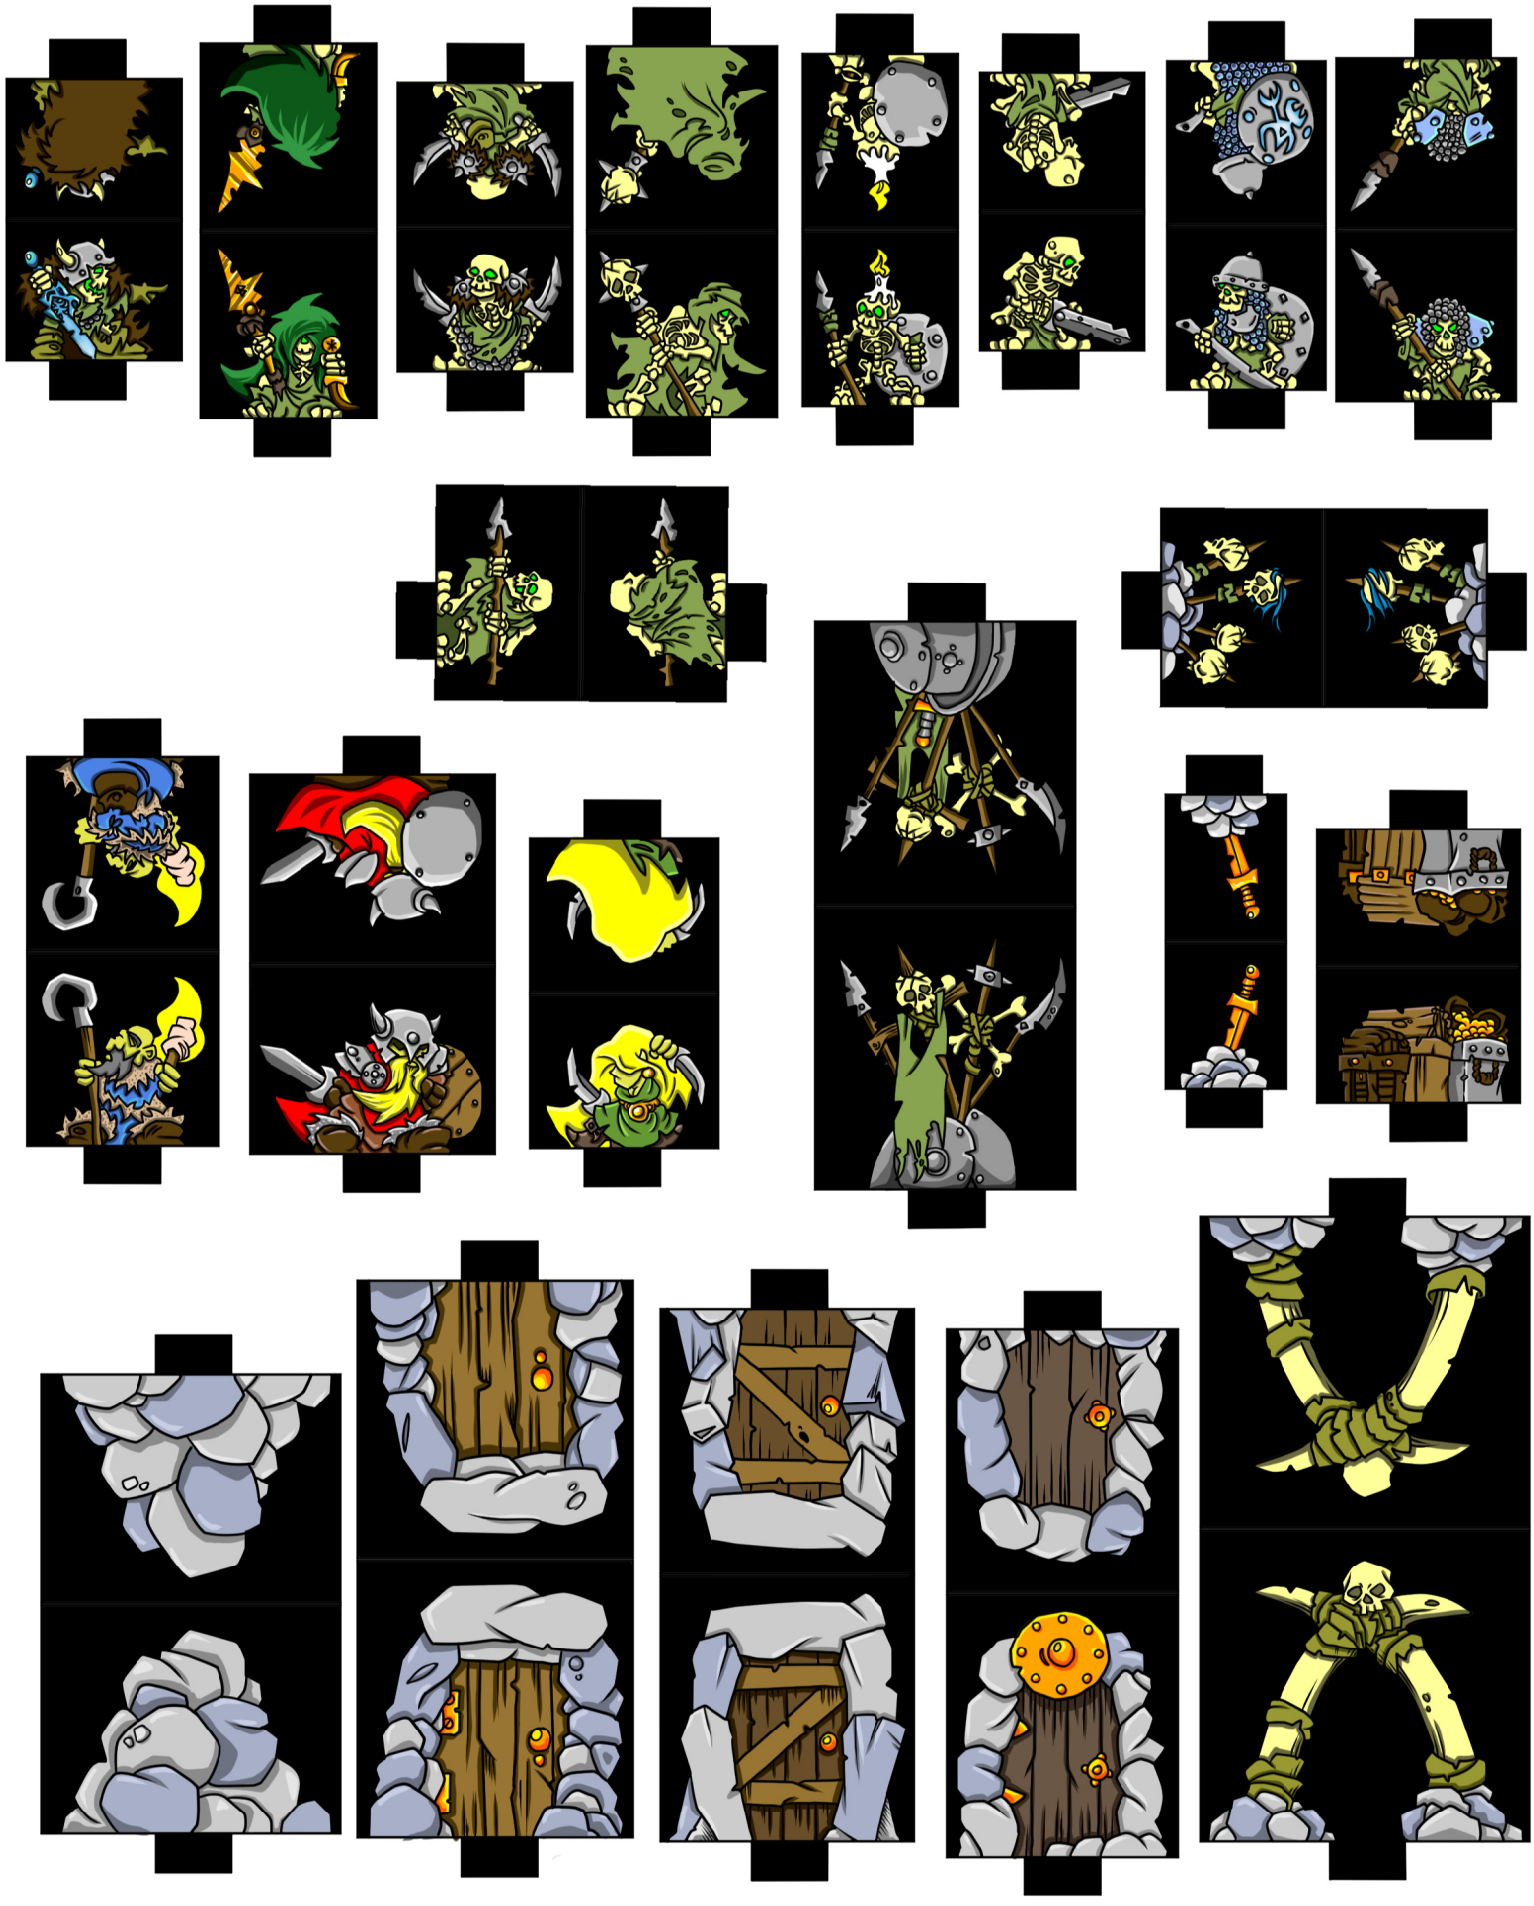

Miniatures are simply constructed by cutting out around the black boarder and folding over with the base tabs folded up on each side. If you have more time these can be glued and boarders trimmed around the shape of the miniature.

Nothing is true, everything is rolled for.
