

Dear adventurer,

My name is Michael Ghelfi, I'm the composer of the biggest RPG ambiences library. For now, I'm only a *very serious* hobbyist, as I still need to keep my job as a cybersecurity analyst to make a living, here in Switzerland.

The project I have is to create the ultimate fantasy audio experience, to cover all possibilities. The ambiences library I made is already by far the biggest on YouTube, and in the world, but hundreds of other ambiences are still waiting to be composed. In that regard, I know I can count on a fantastic community on YouTube and Discord. You are more than welcome to join it!

My ambiences can be downloaded in big packs of 50 pieces on Bandcamp. Each purchase moves me closer to my objective.

I believe in transparency and honesty. To make the ultimate fantasy audio experience, I need the best sound effects. I could have stolen the sounds from video games and movies, as many ambience composers do and you would never know, but what is the worth of an artist stealing other artists? This is why I set up a Patreon page, where you can get exclusive ambiences available nowhere else, while allowing me to purchase sound libraries of exceptional quality. If you are curious, you can see some of which I plan to get in my wishlist. On my Patreon, you can also get dozens of battlemaps, game-ready D&D scenarios, magic item cards, a spreadsheet of all of my pieces, etc. from collaborations I made with great artists such as Czepeku, Loot Tavern, 2MinutesTabletop, etc.

On Discord, we have a thriving community, speaking about tabletop RPGs, worldbuilding and writing mainly. There you can suggest new ambience ideas and we will gladly speak about them.

Most of my creations are also available on Spotify.

If you want to use my creations for a specific project, you can check the conditions of use.

Thank you for your attention. Happy adventuring!

Michael Ghelfi
