

REMOTE CONTROL FIREFLY

"A magical firefly that produces a fierce light that can illuminate anything no matter how dark."

The one opening the bottle becomes the firefly's master. It will follow and serve it's master to the best of its abilities for one hour, but only responds to spoken commands. The firefly can dispel any darkness (magical & non-magical) in a 20-foot radius. After 1 hour, the firefly stops serving its master and turns into a non-magical firefly.
