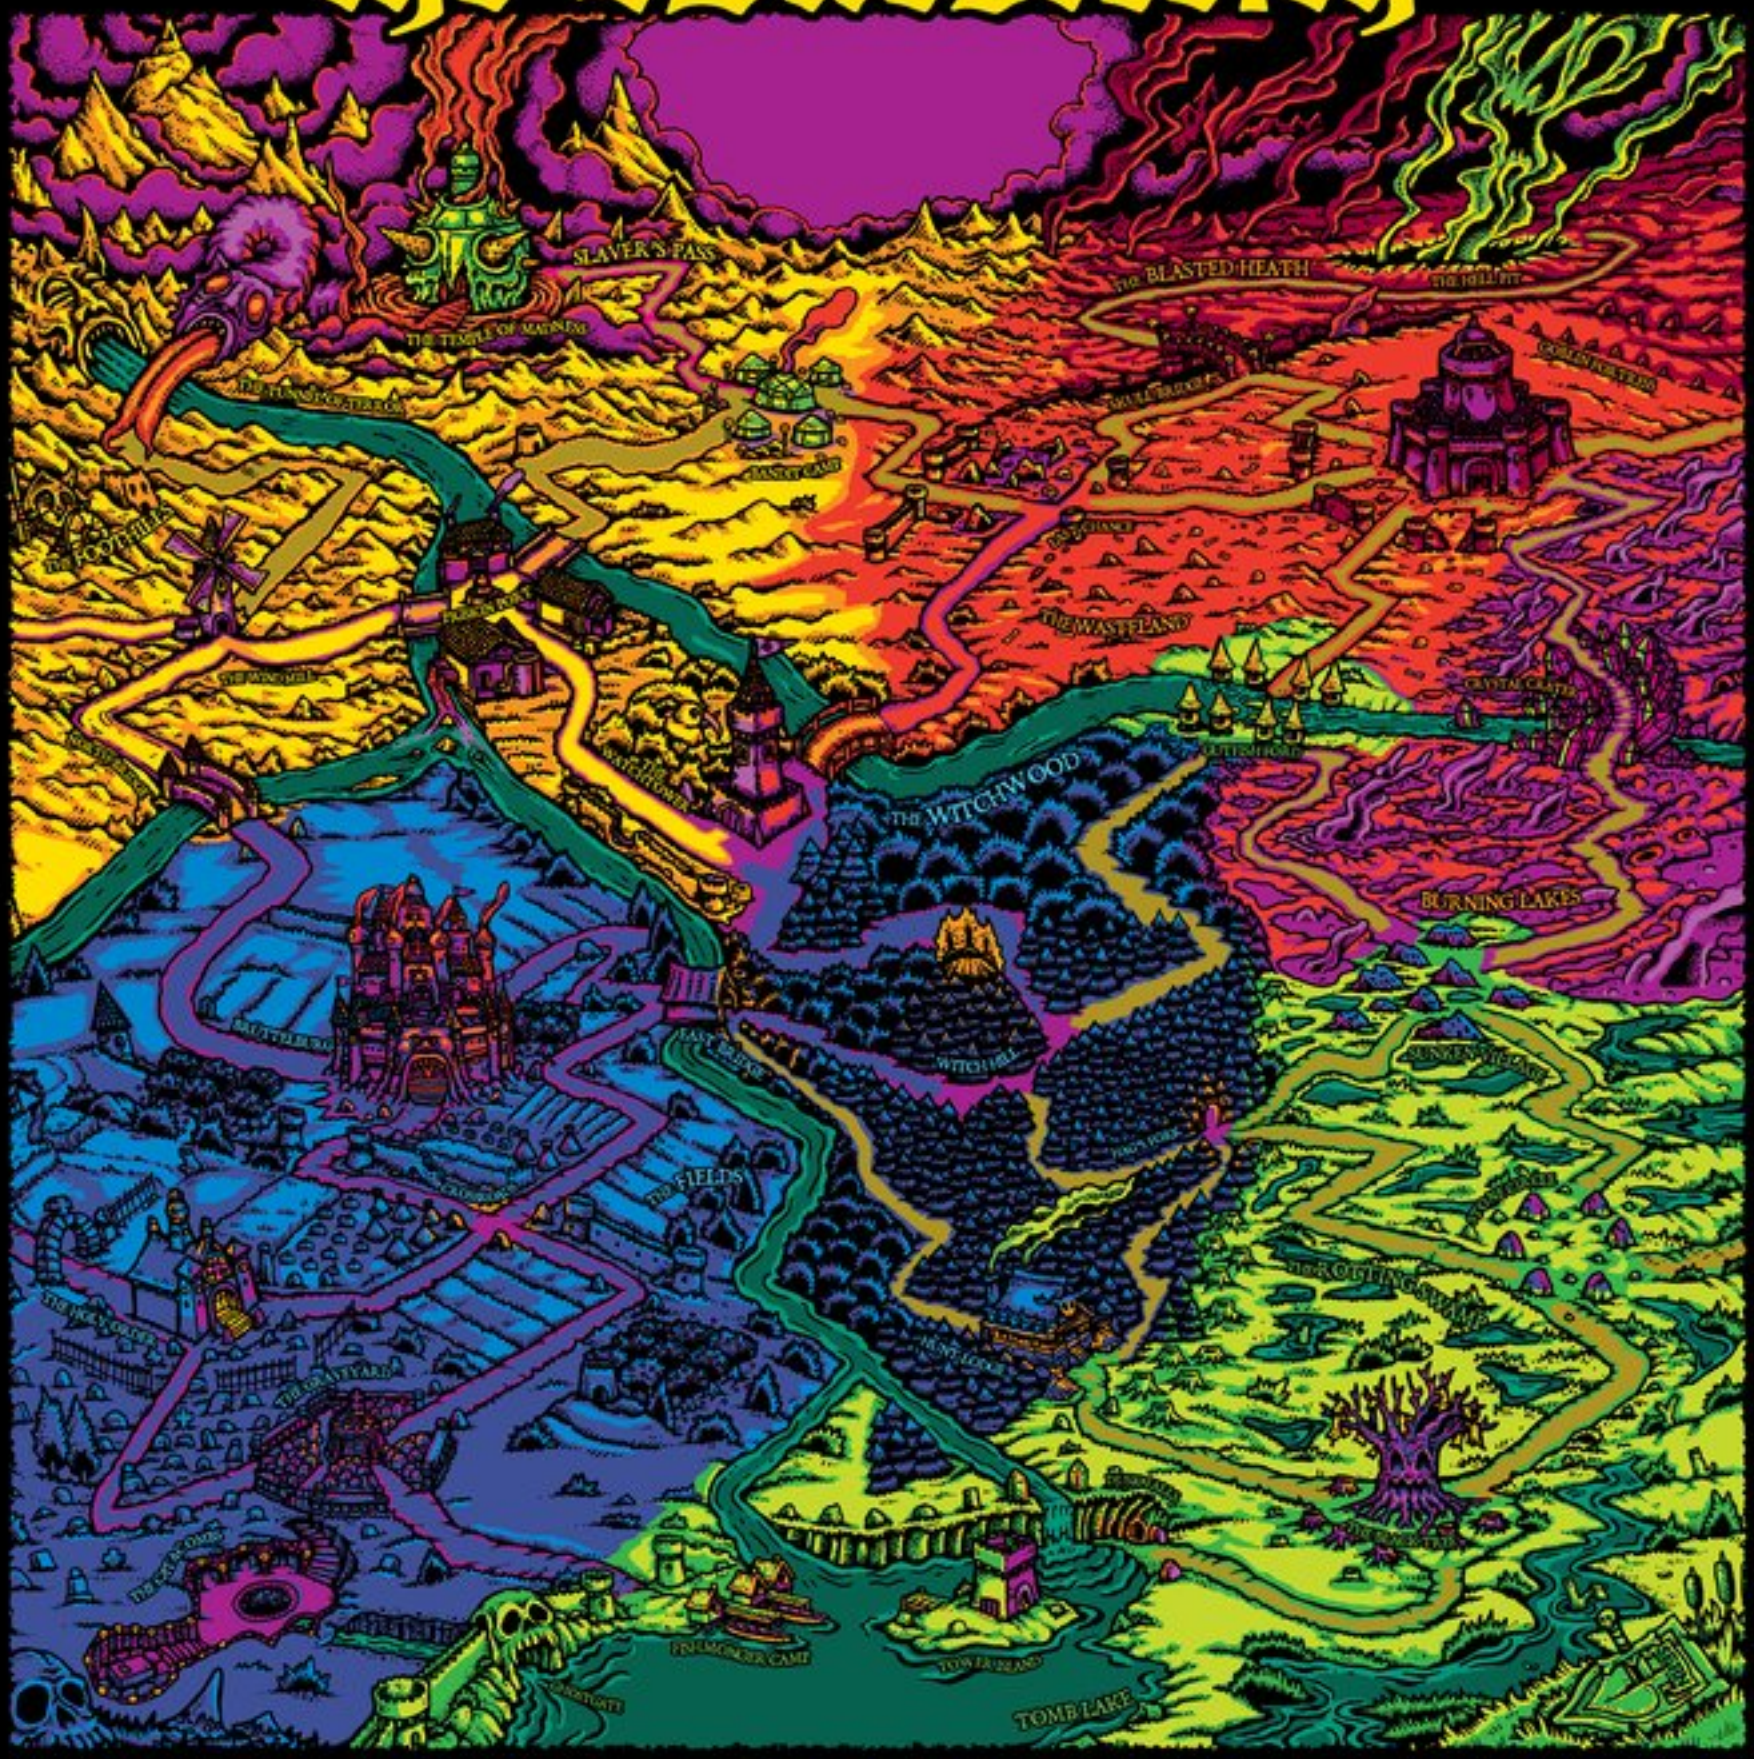
DUNGEON DEGENERATES™

IN A LAND WHERE ROT RULES, ONLY THE DEGENERATES SURVIVE!

the Würstreich



Legend

The Würstreich - an Empire in decline, where survival is an adventure unto itself. Once the pinnacle of human civilization, it now teeters on the brink of Total Doom, having collapsed into corruption, decadence, decay & madness. Evil Wizards pervert the very fabric of nature, bringing gibbering madness from beyond screaming into absolution & an endless menagerie of monsters fight for domination! In chaos - there is opportunity! The fecund stench of the Rotten Realm of the Würstreich beckons! Having escaped from the moldy dungeons of Brüttelberg, your Degenerate Adventurers must use wits & weapons to find their fortune in the monster & madness infested badlands - fate decided by the luck of the draw & the roll of the dice! In a land where rot rules, only the Degenerates survive! As if degeneration & decay weren't enough, the shadowy Necromancer's Hand of Doom points its yellowed fingernail & projects its diabolical decree on the cursed land!
