## What You'll Need

### 1) Choose US Letter or A4 version of the Print-N-Play

US Letter is most common in the United States. A4 is most common outside the United States.

### 2) A Printer

### 3) Paper Stock

The Print-N-Play edtion is designed to print on:

**Avery Name Badge Insert Refills: Template 5390**

*The Avery Template Card Stock is **not required**, but we find it makes printing and separating the cards easier than other methods. ** Use US Letter PDF files for Avery Template printing.*

***Note:** You may print the cards on the paper stock of your choice.*

## Printing Instructions

Maniac Cards define the game's actions. These cards are played to move Victim Cards on The Wall, strategically discourage other Maniacs from capturing Victims, and boost your score.

**1) First, print each card deck file from the *Card Fronts* folder.**

**2) Separate each card deck into groups: Final Girl, Maniac, Plot Twist, Victim.**

**3) Flip the printed card decks over, insert a card deck group into the printer, and print the corresponding *Card Backs* file for each card deck.**
*Note: Printing the Card Backs is optional, you may choose to label them on your own.*

**4) Separate the cards individually.**
*Note: If you used the Avery Name Badge templates, you can separate the cards by hand, otherwise you will need to use scissors or a paper slicer. A large Maniac knife is not recommended.*
