
GLUE
INSERT
x1 backyard
x2 backyardDoor_unlabeled

GLUE
INSERT
x1 doorLock
- If you don't want the dices to open the doors when they hit them, use the "doorLock" piece.

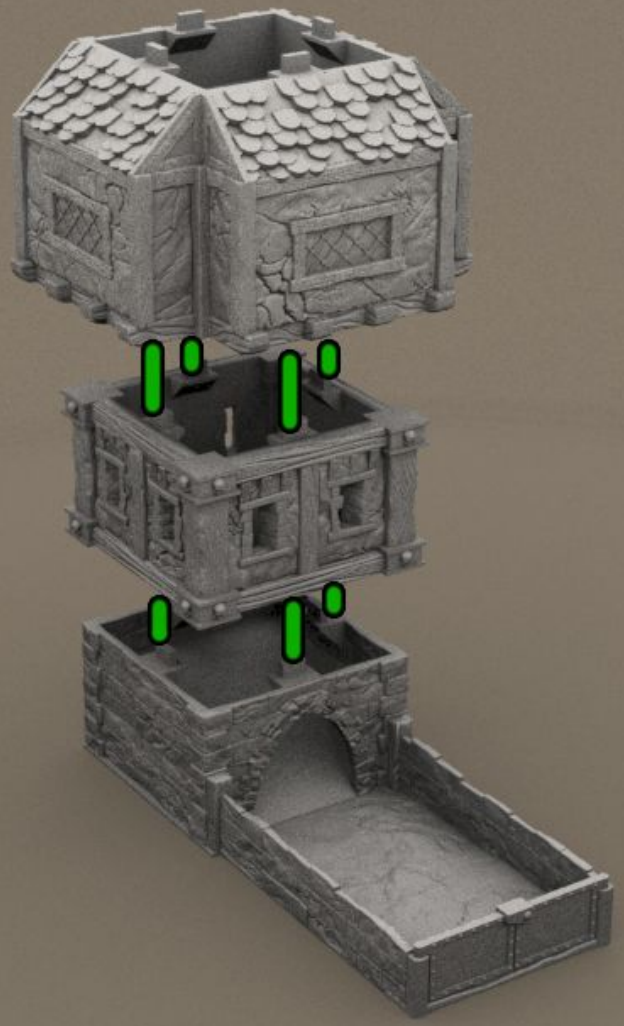

GLUE
INSERT
x1 base_01

GLUE

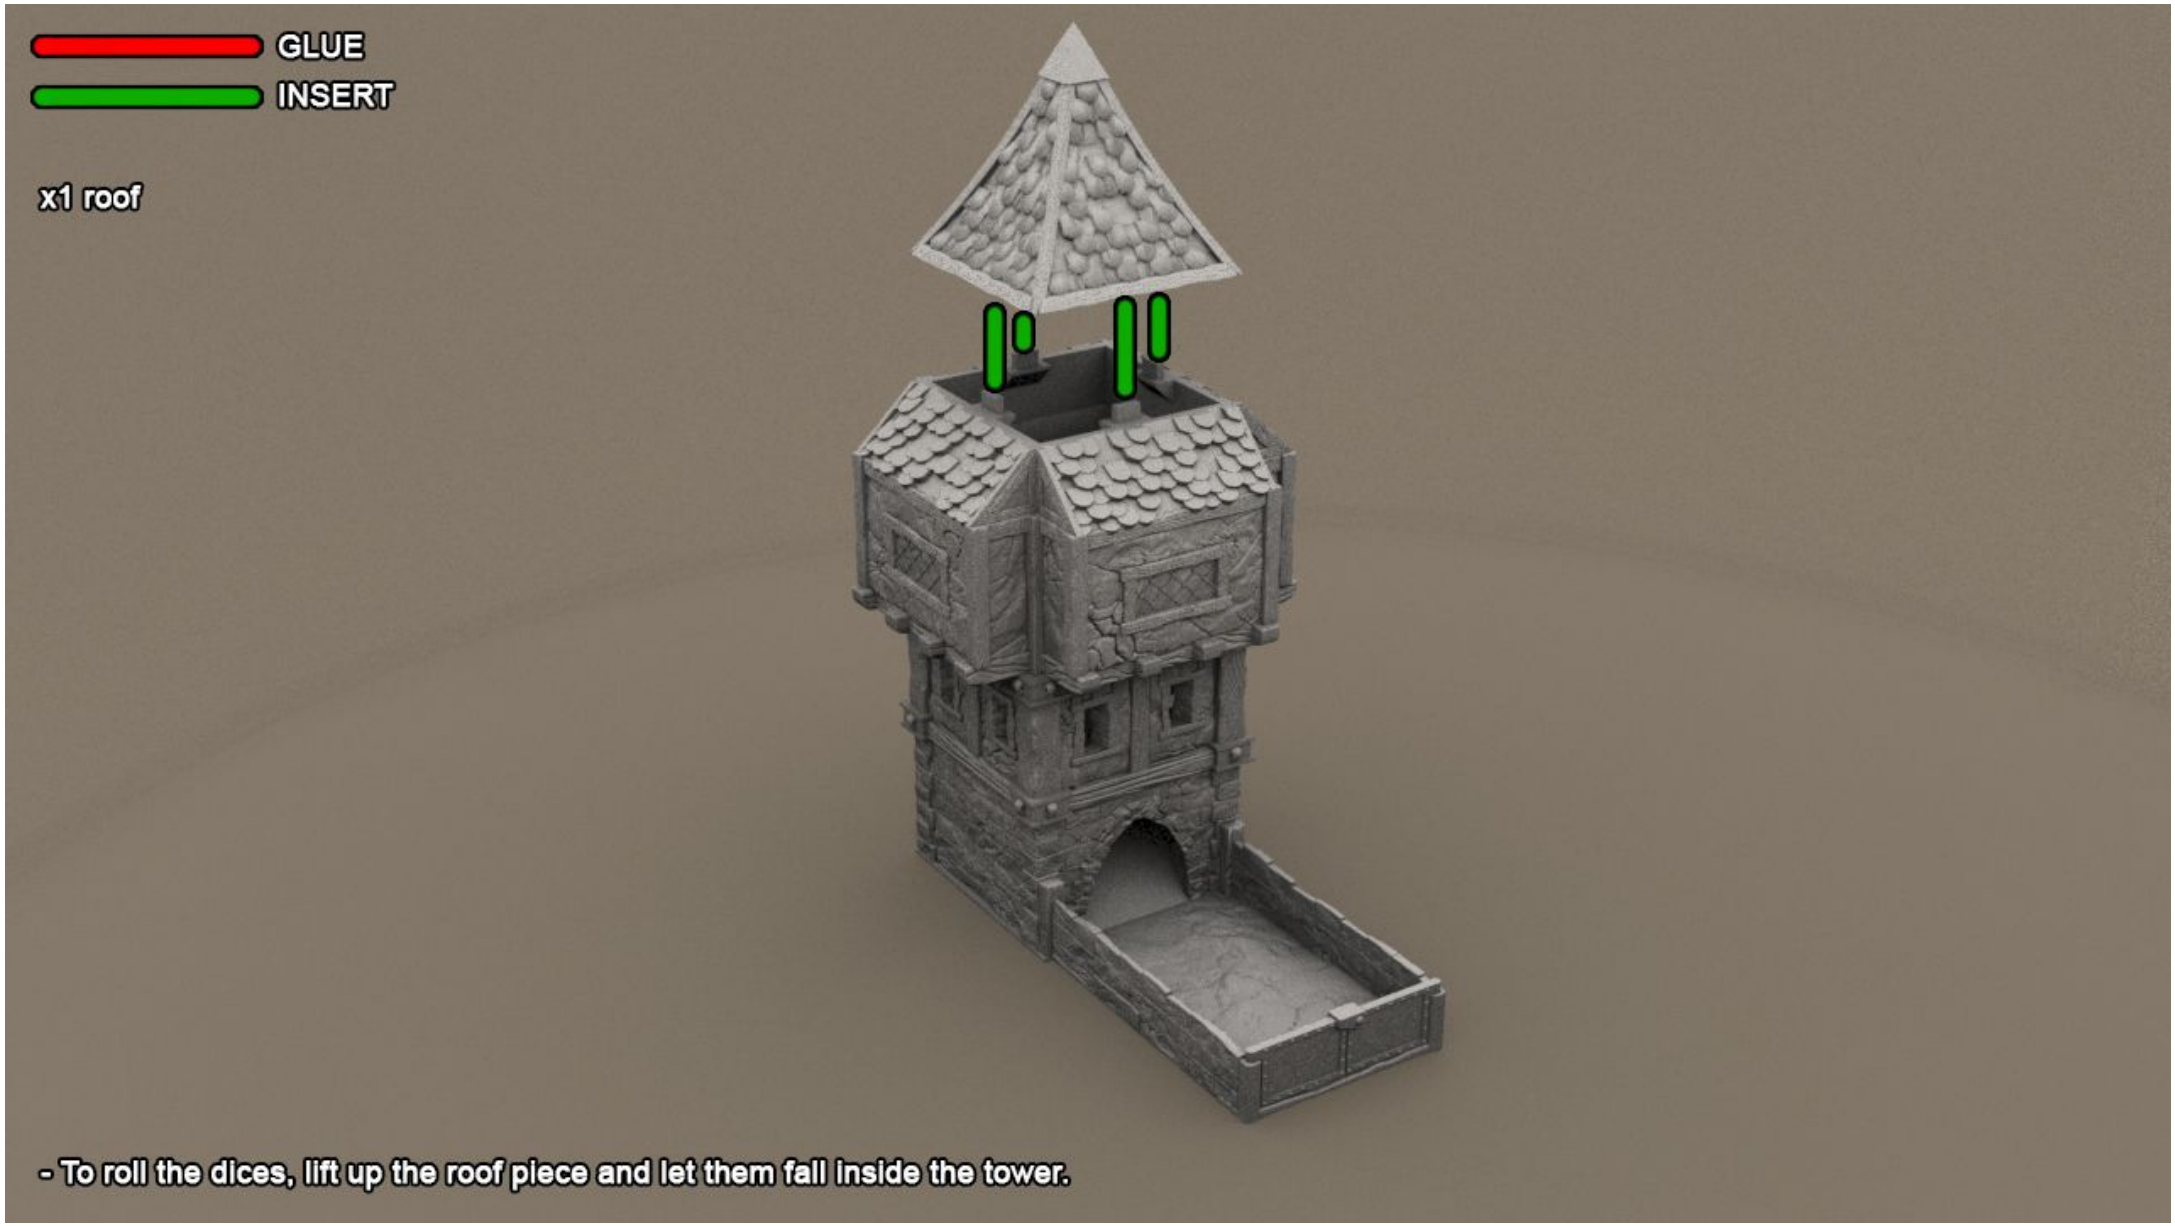

INSERT

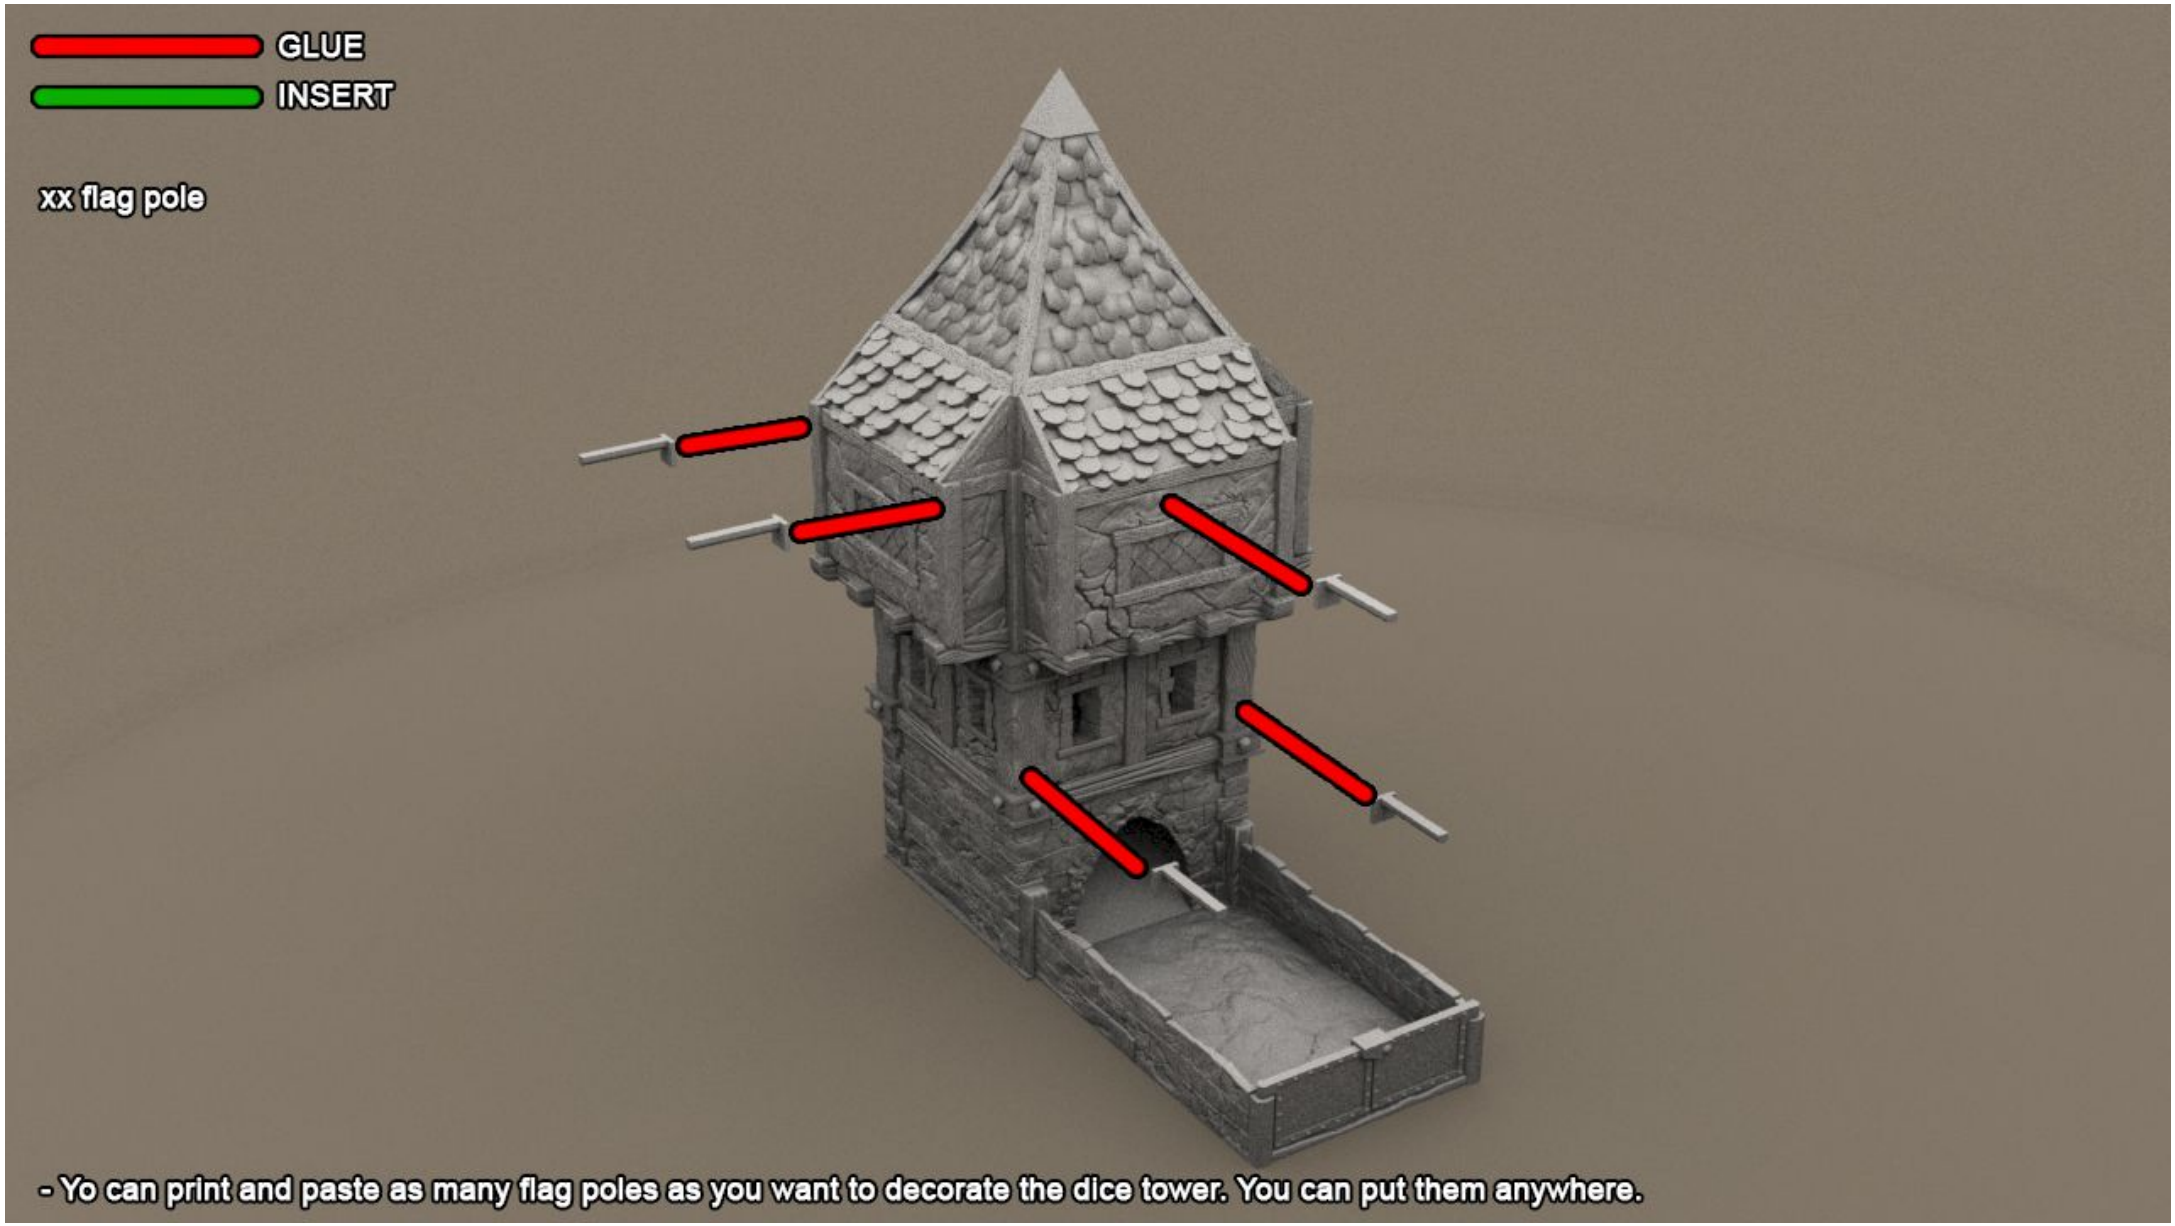

xx module_A

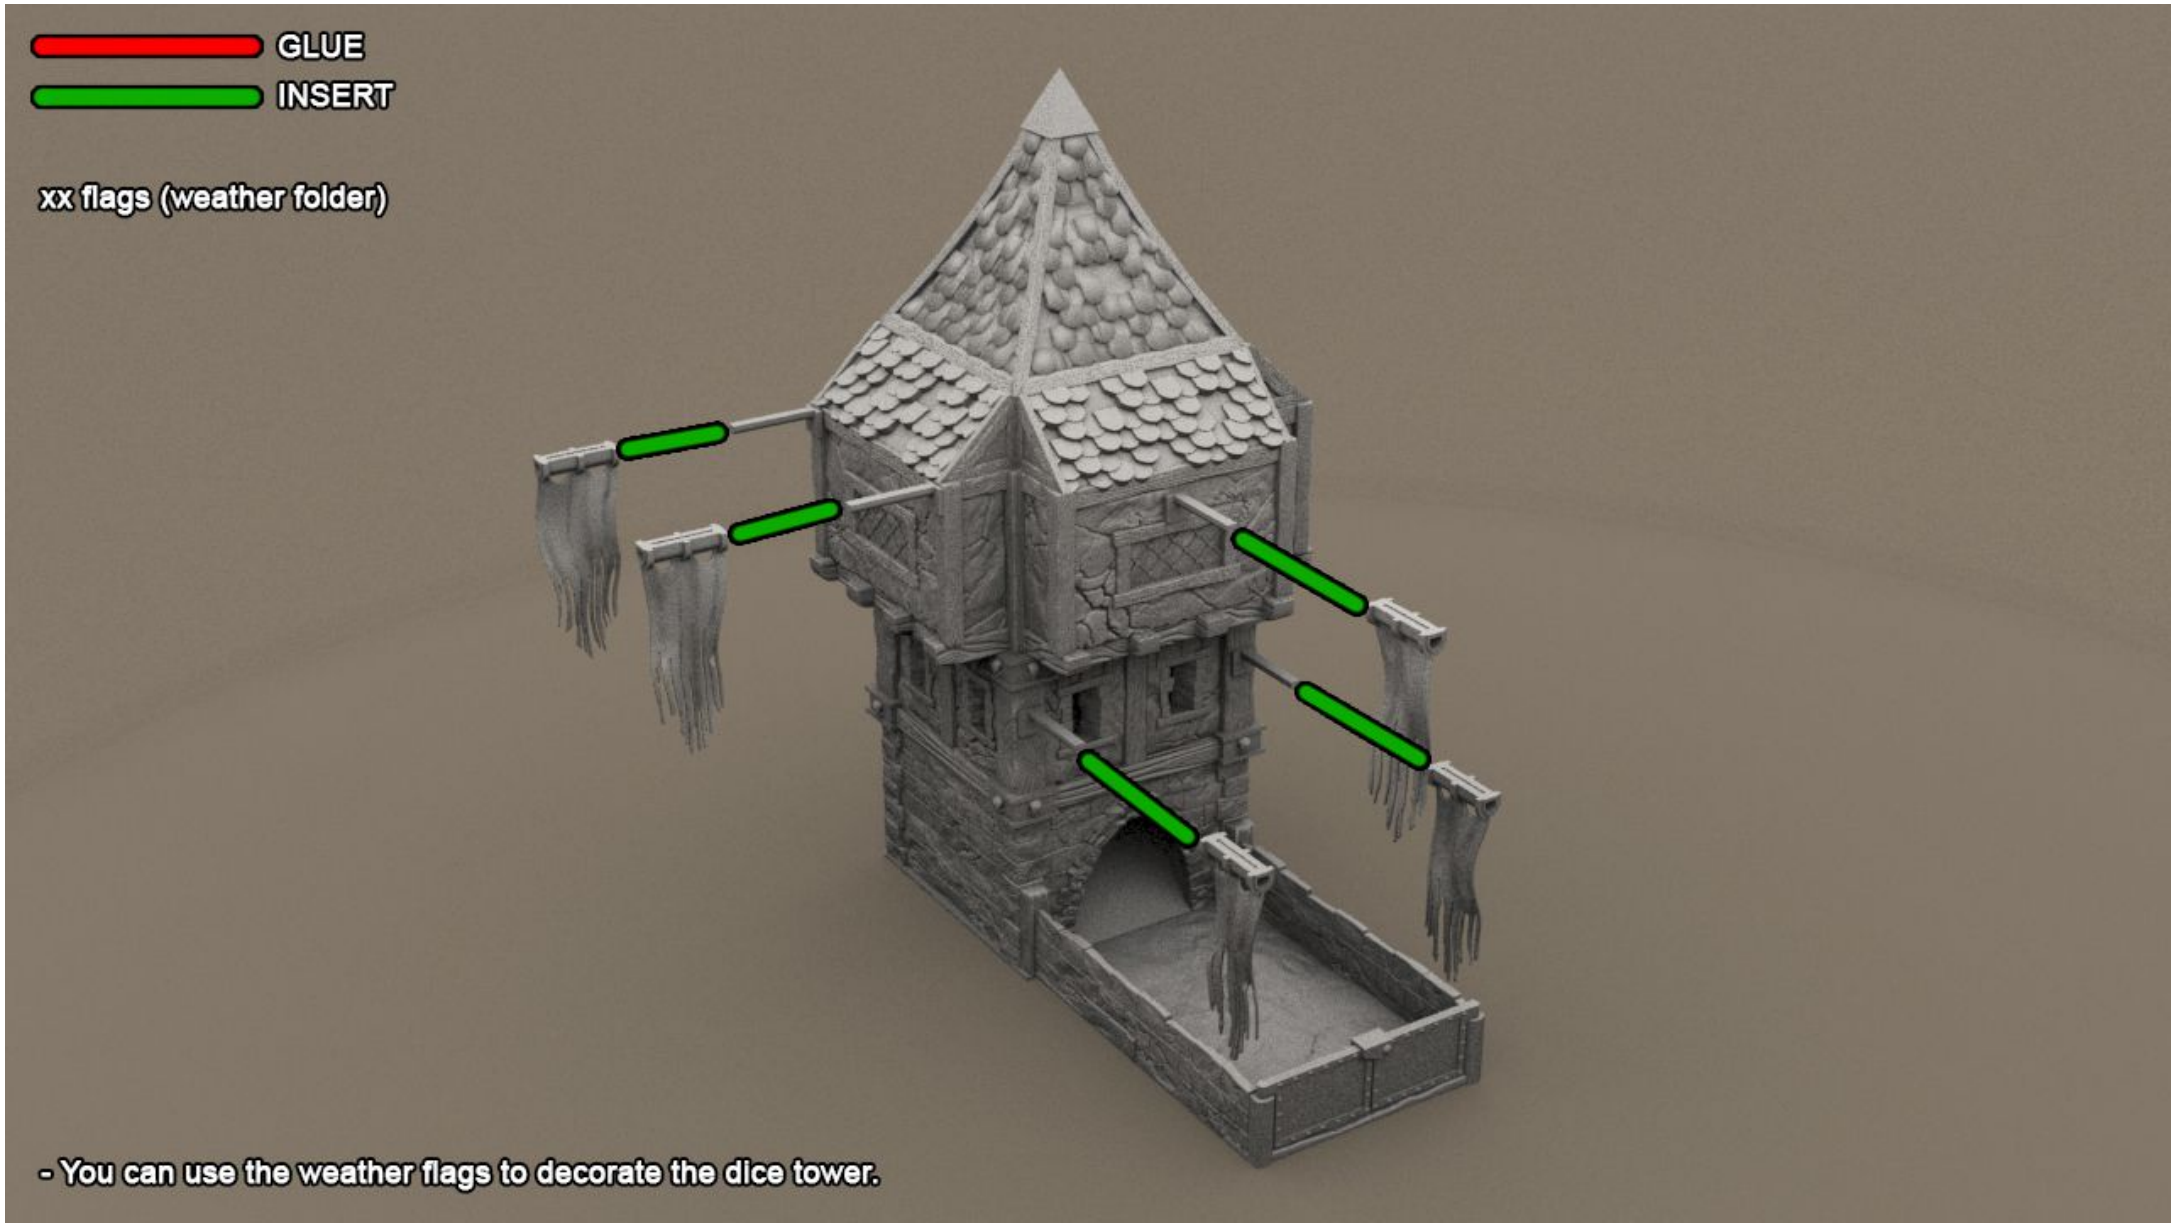

xx module_B

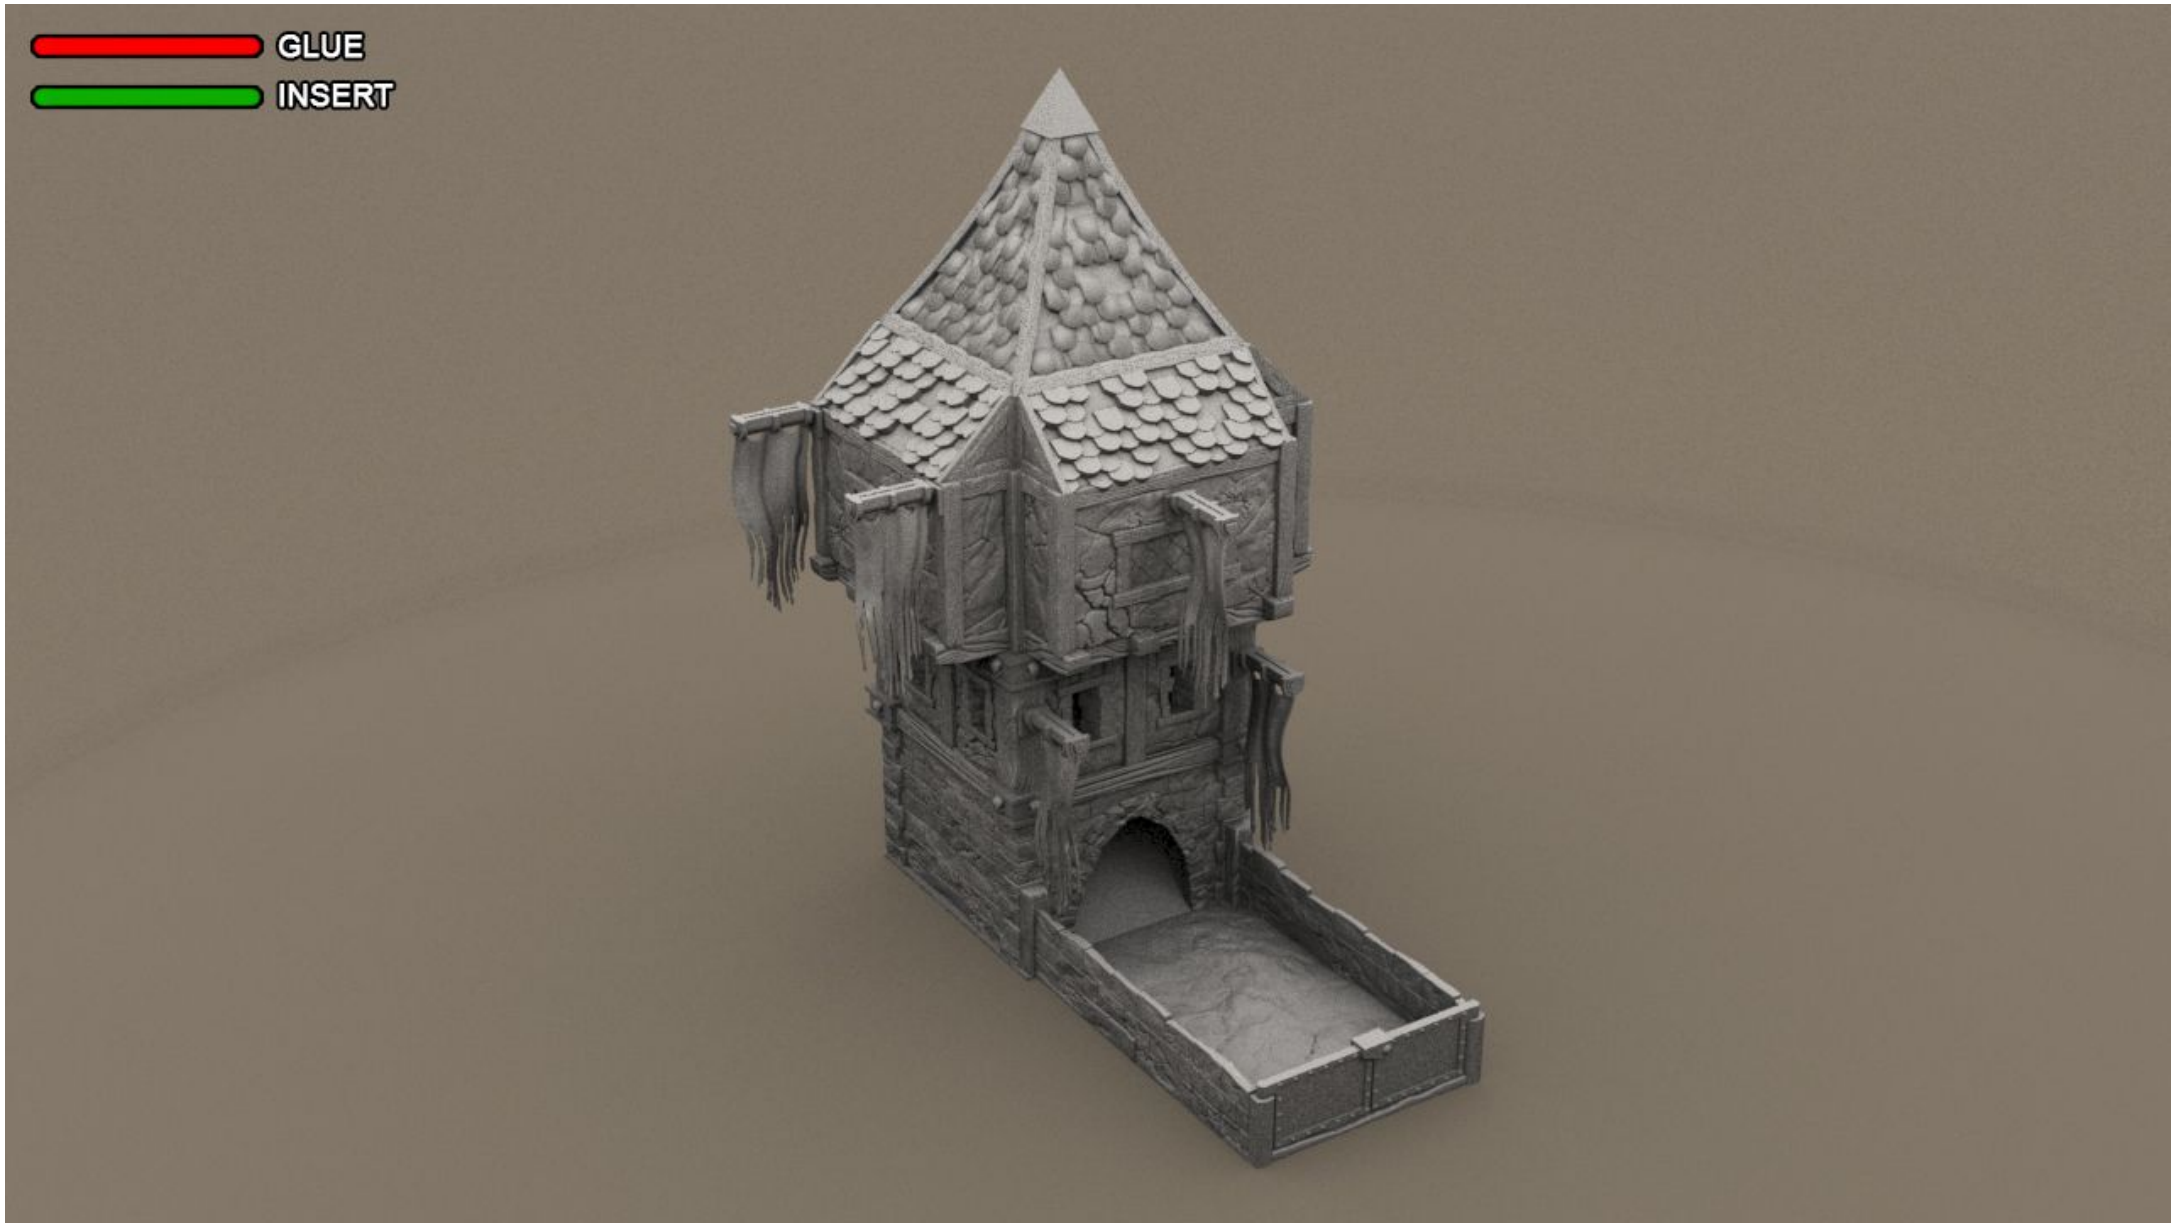

- You can print and combine as many modules A and B as you want to customize your dice tower.

GLUE
INSERT
x1 roof
- To roll the dices, lift up the roof piece and let them fall inside the tower.

GLUE
INSERT
xx flag pole
- Yo can print and paste as many flag poles as you want to decorate the dice tower. You can put them anywhere.

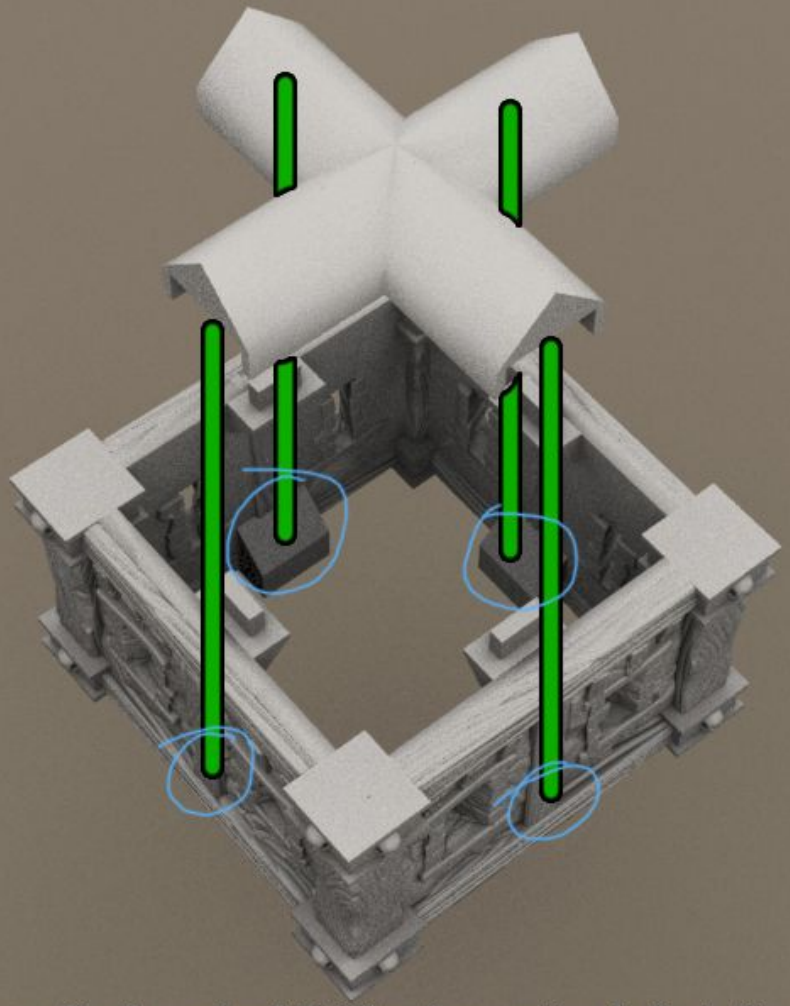

GLUE
INSERT
xx flags (weather folder)
- You can use the weather flags to decorate the dice tower.

GLUE
INSERT

GLUE

INSERT

x1 stopper

- If the dice tower is very high, probably the dices will roll very hard. Put the stopper piece in the bottom brackets of the first module to stop the dices.
