BREATH OF FIRE 5: In place making an Arcane assault you may choose up tp five targets who are both within 1 increment of one another and within Arcane range and make an Arcane OFF test, forcing each target to either succeed at a DEF test made against your OFF result or be defeated by a Fire type hazard.

COMMAND: When testing for Morale, you may roll an additional die and choose which to use provided this unit is on the map.

SUMMARY EXECUTION: After failing a Morale test you may immediately make a free assault against an allied unit within range and, if you defeat the unit and survive the assault, you automatically pass the Morale test instead.
