FUTURE ARMADA

PHOENIX

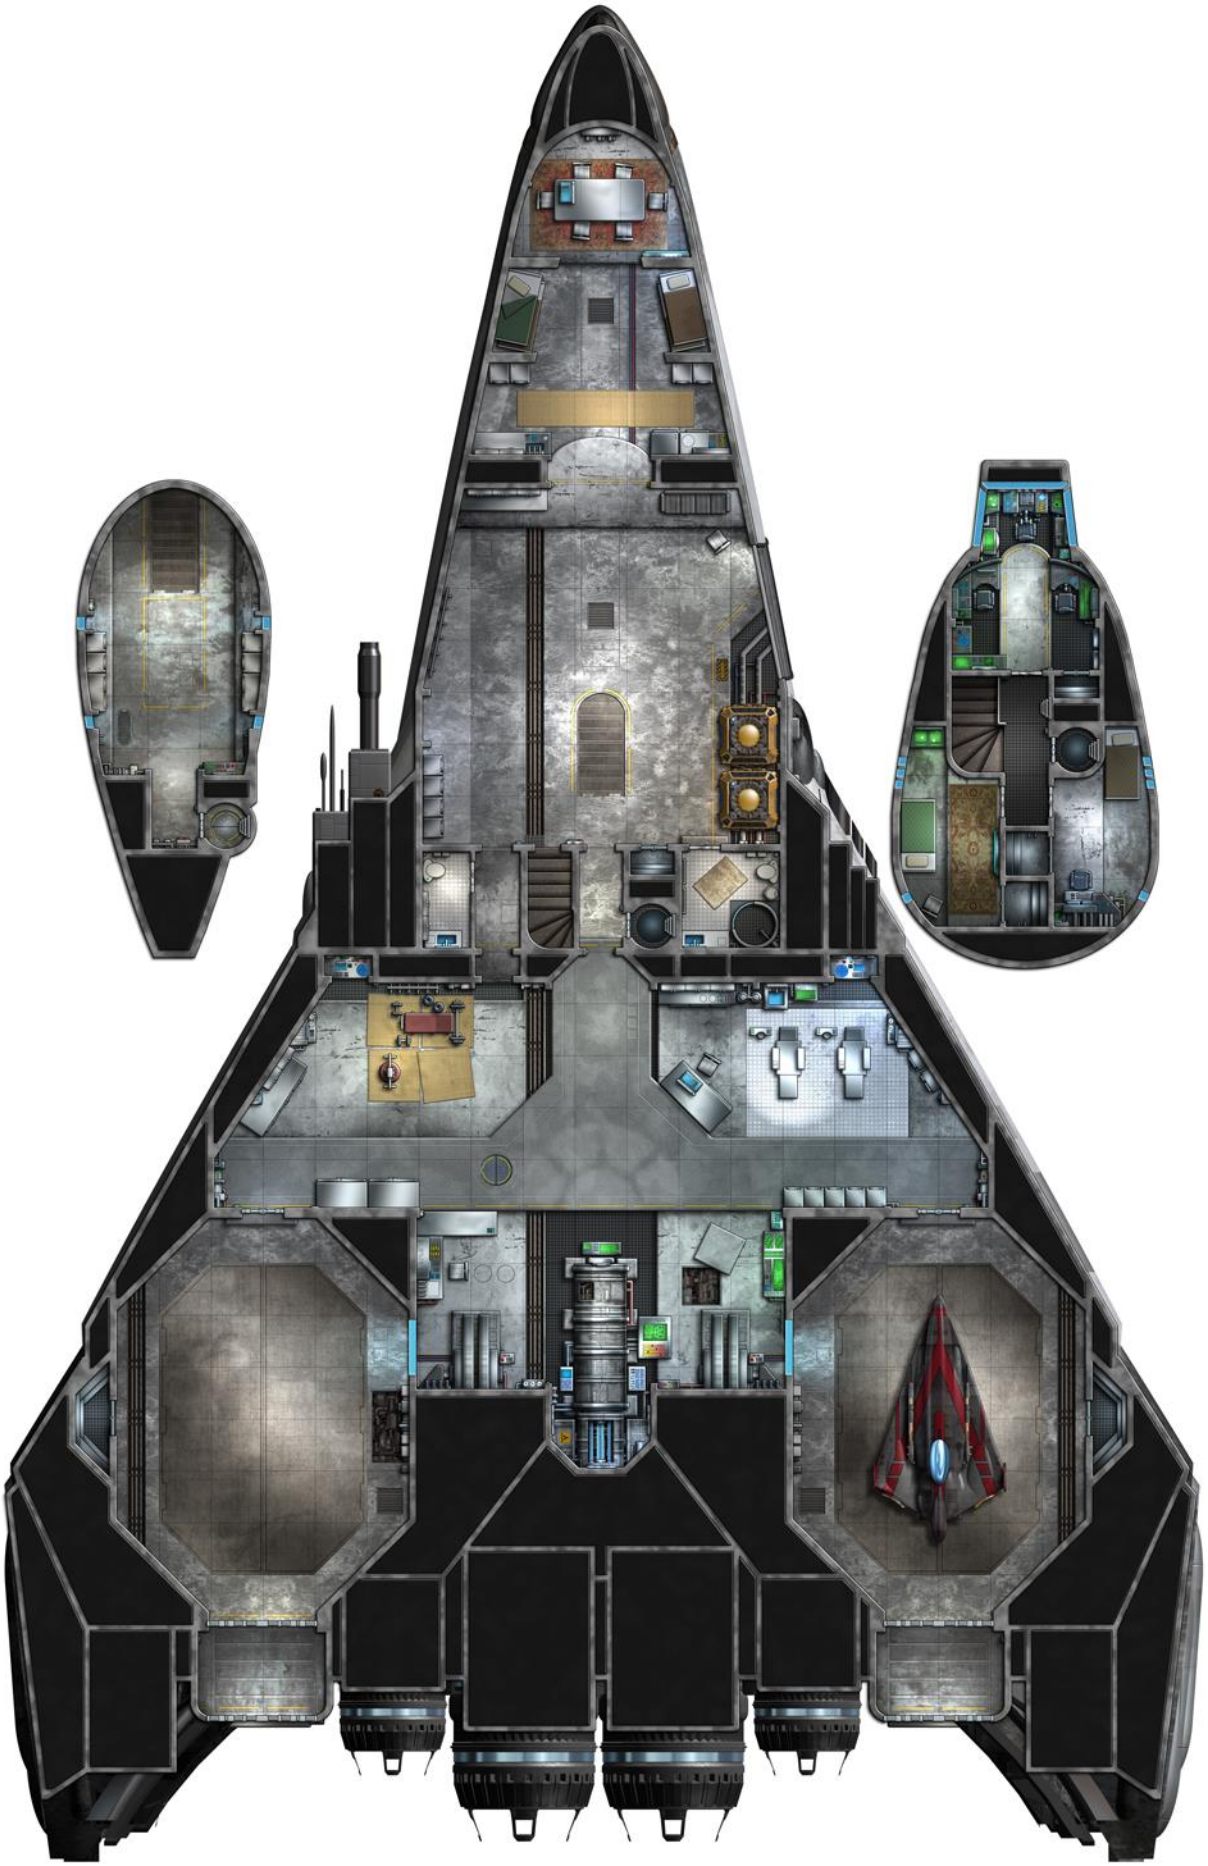

MAPS

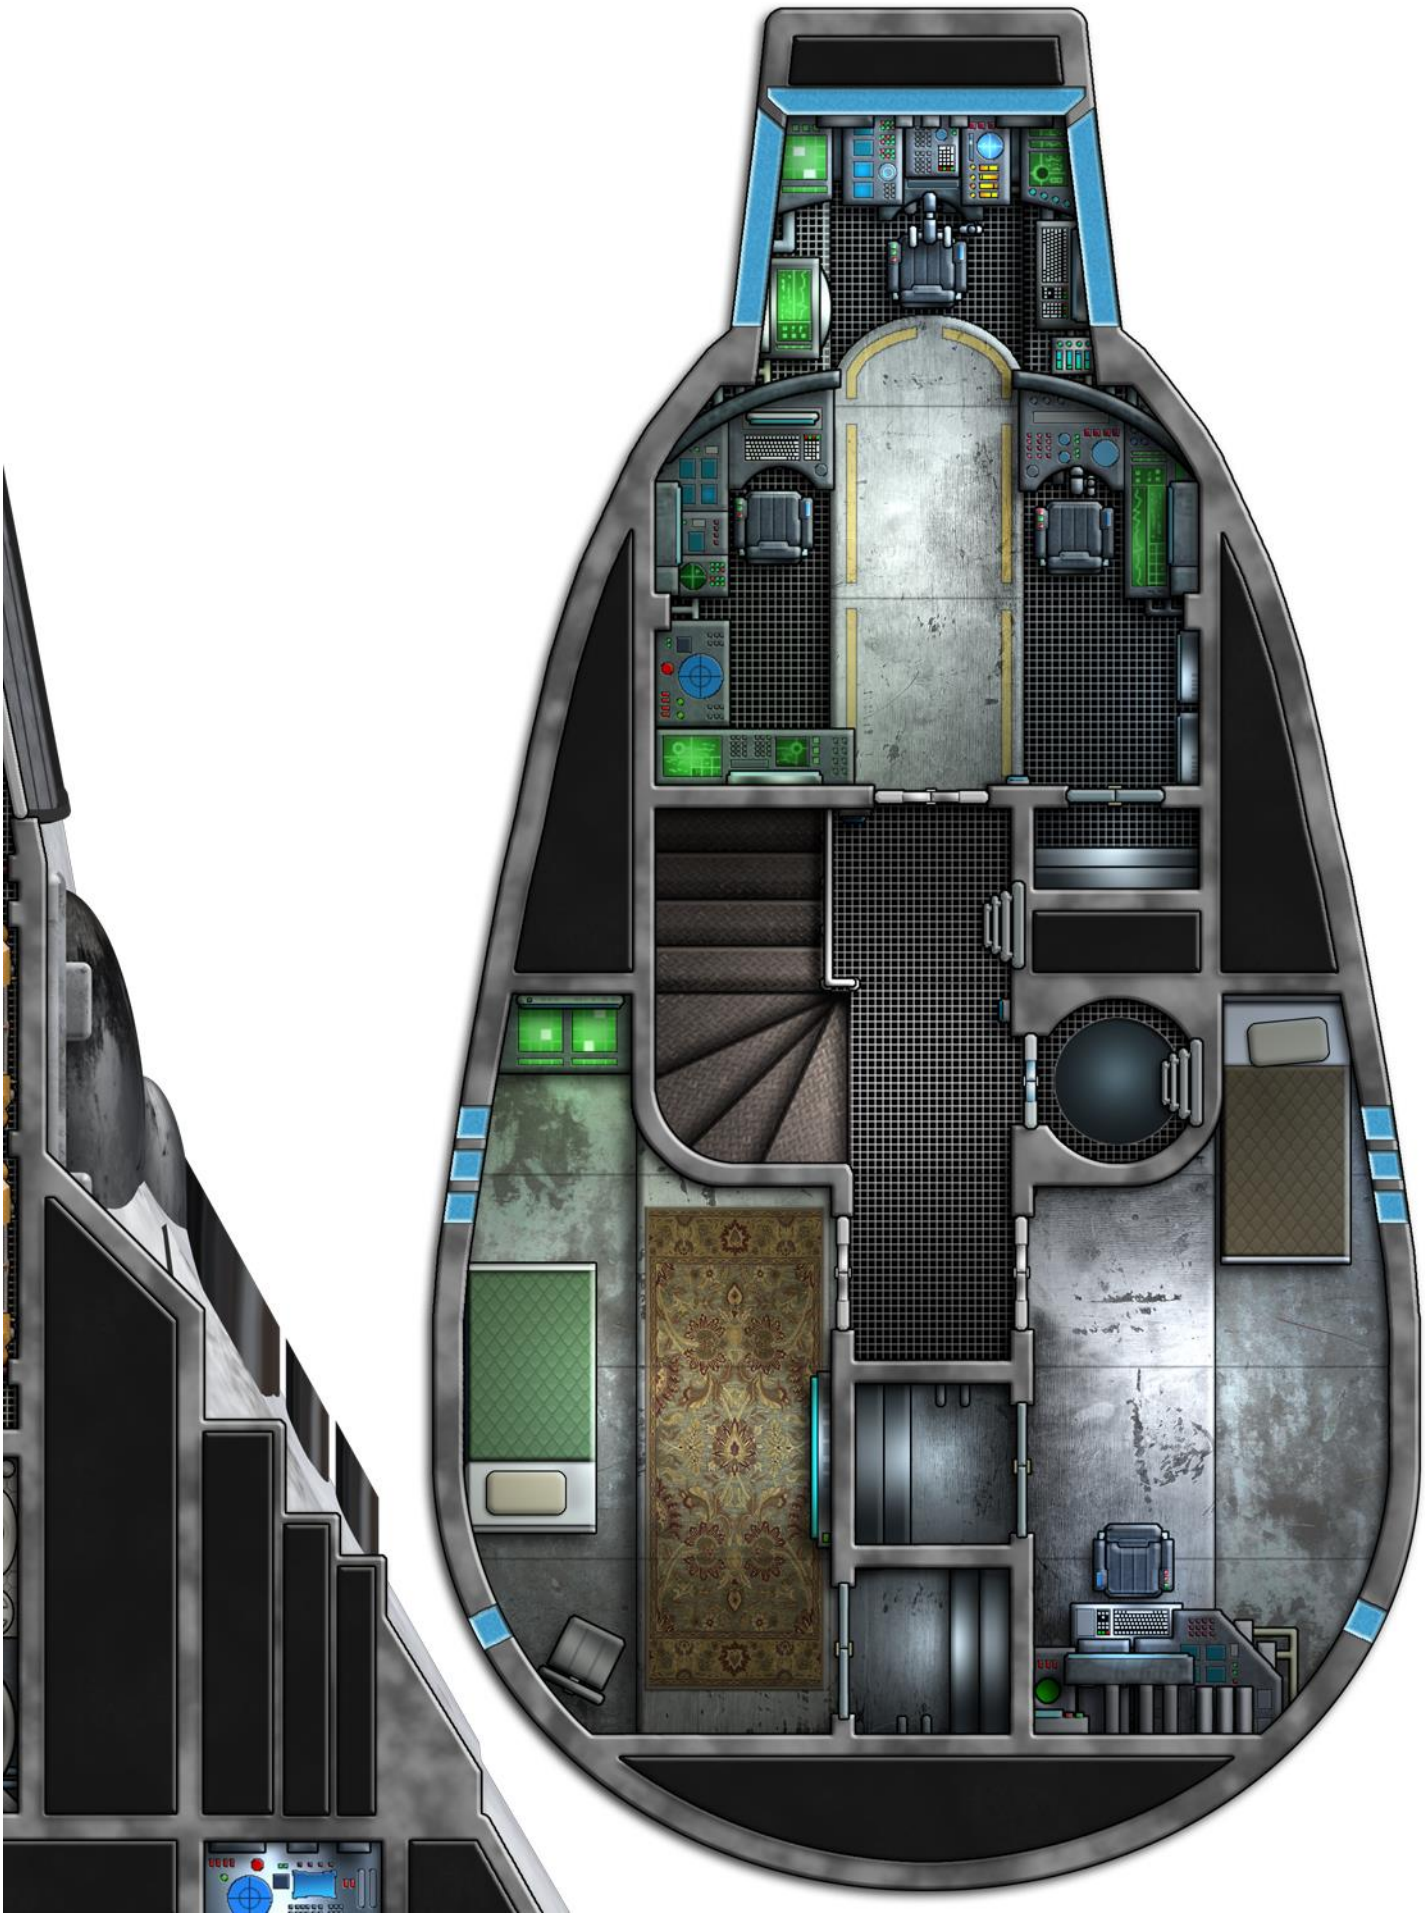

Phoenix

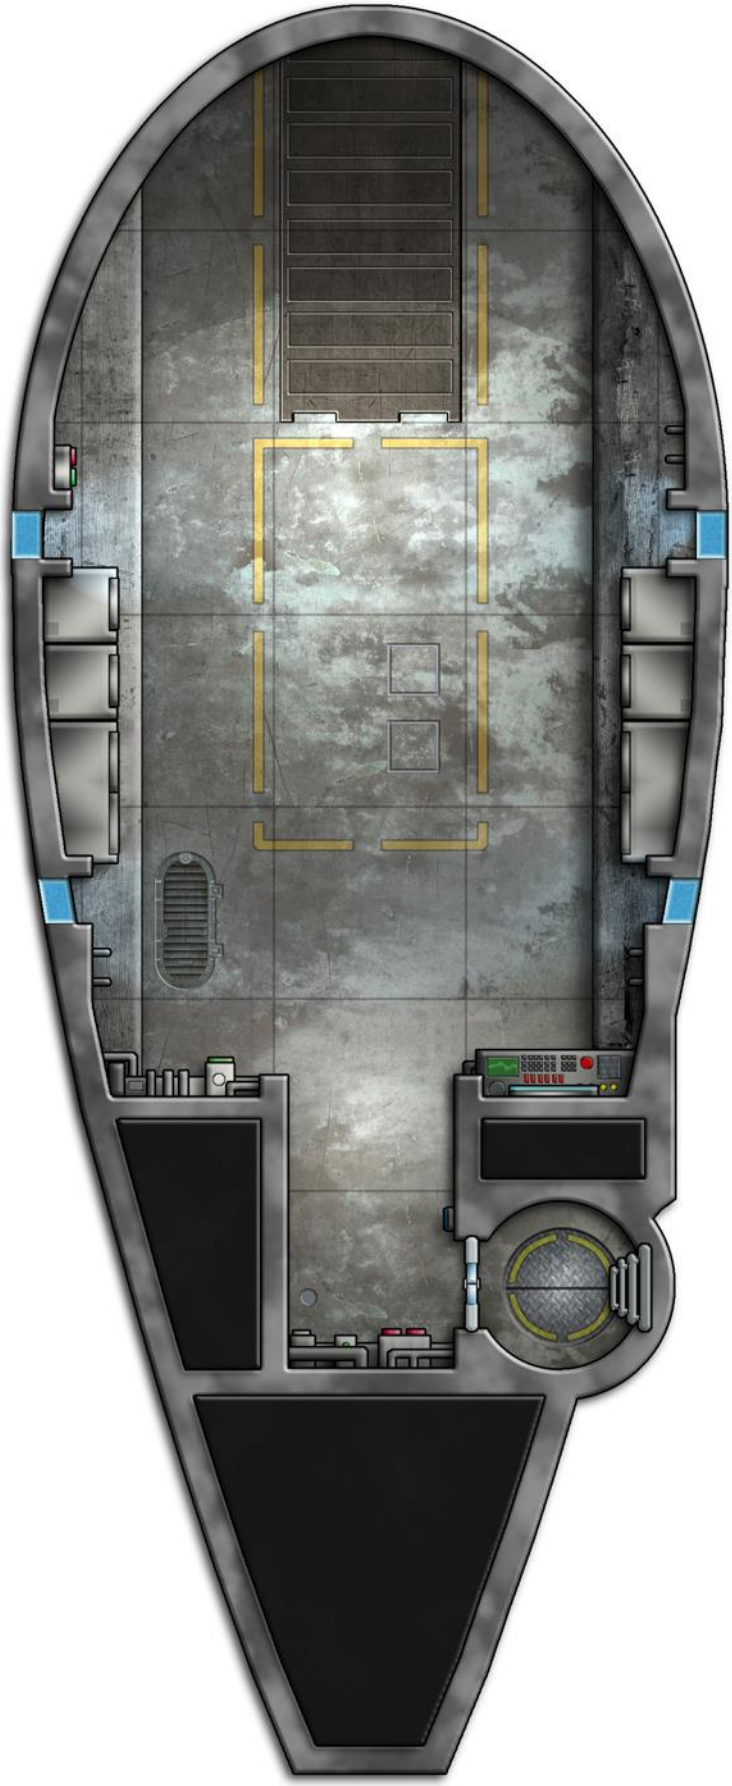

This document contains thirteen pages for Phoenix. It begins with a composite view showing the entire ship. This image can be used to see how the printed pages should be laid out.

Phoenix consists of a single main deck with a bridge area above and an airlock / exit ramp below. The bridge and air lock are each single pages and are listed first in this document (immediately after the composite image). The eight pages that make up the main deck follow this. A pair of extra pages are provided so that the cargo bays can be displayed without a page break in the middle.
