After removing the Market Mat below from the page, cut along the red dashed line. Then mount to poster-board, cardboard, or whatever material you wish to make your tokens from, aligning the top and left edges to the edges of the material you are using. Then do the same with the faces of the tokens using the same method except you'll be aligning to the top and right edges to the other side of your material. When you cut your tokens out, they should be aligned properly resulting in double-sided tokens. Feel free to remove any excess material from the bottom and left sides of this sheet before mounting.
